

KARTIK PRADEEP HEGADI

karthikhegdi143@gmail.com | +91 9663008625 | [LinkedIn](#) | [GitHub](#)

Cloud and DevOps Engineer with hands-on experience in *AWS, Kubernetes, Terraform, Jenkins, Docker, and CI/CD automation*. Skilled in building cloud-native infrastructure, implementing Infrastructure as Code, and deploying containerized applications on Amazon EKS. Passionate about Site Reliability Engineering, cloud security, and scalable distributed systems.

EXPERIENCE

DevOps Intern, StarAgile – Bangalore, India

Dec 2025 - June 2026

- Worked with AWS services including with AWS services including *VPC, IAM, Route 53, RDS, DynamoDB, CloudWatch, CloudTrail, SNS, SQS, Elastic Load Balancer (ELB), Auto Scaling, Lambda, and CloudFormation*.
- Implemented Infrastructure as Code (IaC) using Terraform for provisioning and managing AWS resources.
- Orchestrated containerized applications using *Kubernetes* (Amazon EKS), *including deployments, services, scaling, rolling updates, and rollbacks*.
- Developed and automated CI/CD pipelines using Jenkins, GitHub Webhooks, Maven, and deployment automation workflows.
- Configured monitoring and observability solutions using *Prometheus, Grafana, and CloudTrail*.

Digital Content Creator/ IT admin, EAPD – Bangalore, India

July 2024 - September 2025

- *Refurbished and migrated organizational websites to Amazon Web Services (AWS)*, ensuring optimized deployment, scalability, reliability, and ongoing infrastructure management.
- Performed *cloud infrastructure administration*, including hosting configuration, environment setup, and lifecycle management *from scratch*.
- Configured and maintained *SSL/TLS encryption, Amazon Route 53 DNS records*, and domain management services.
- Developed and maintained *digital content assets*, including *technical blogs*, structured documentation, and *multimedia materials*.

DevOps/CloudOps Intern, Gradiious Technologies - Hyderabad, India

May 2023 - June 2024

- Acquired hands-on experience in *Linux Administration, Storage, Networking Fundamentals, Jenkins, Docker, and AWS Cloud Services (Compute, Storage, and Networking)*.
- Key [Projects](#) included Deploying of *Mattermost Software*, implemented end-to-end CI/CD pipelines for Java and React applications, deployed a three-tier application on Amazon ECS using Docker, and implemented AWS Three-Tier Architecture.

PROJECTS

BookMyShow Clone – End-to-End DevSecOps CI/CD Pipeline with GitOps | [GitHub Repo](#)

Domain: DevOps & Cloud Computing

Technologies: GitHub, Jenkins, SonarQube, Trivy, Docker, Docker Hub, Kubernetes, Amazon EKS, ArgoCD, Helm, Prometheus, Grafana, Gmail SMTP

- Designed and implemented an end-to-end **DevSecOps CI/CD** pipeline for a containerized BookMyShow Clone using *GitHub, Jenkins, Docker, Kubernetes, and Amazon EKS*.
- *Integrated SonarQube and Trivy* for automated code quality checks, vulnerability scanning, and security validation within the deployment pipeline.
- Automated Docker image build, versioning, and publishing to *Docker Hub*, enabling faster and consistent application releases.
- Implemented GitOps-based continuous delivery with *ArgoCD* and configured *Prometheus-Grafana* monitoring for *real-time observability*, deployment tracking, and infrastructure health monitoring.

Zomato Clone – CI/CD Pipeline, Monitoring & Kubernetes Deployment | [GitHub Repo](#)

Domain: DevOps & Cloud Computing

Technologies: *GitHub, Jenkins, SonarQube, Docker, Docker Scout, Docker Hub, Prometheus, Grafana, Node Exporter, Kubernetes, Amazon EKS, ArgoCD, Helm, AWS EC2*

- Built and automated a complete *CI/CD pipeline* for a containerized Zomato Clone application using *GitHub, Jenkins, Docker, and Kubernetes*.
- Integrated *SonarQube and Docker Scout* for automated code quality analysis, security scanning, and container image *vulnerability assessment*.
- Provisioned and managed Amazon *EKS clusters*, enabling scalable and highly available application deployments with *GitOps-based* continuous delivery through *ArgoCD*.
- Configured *Prometheus, Grafana, and Node Exporter* for real-time monitoring of infrastructure, application performance, and Jenkins pipeline metrics.

Web Application Deployment using AWS Three-Tier Architecture | [GitHub Repo](#)

Domain: AWS Cloud Computing

Technologies: *AWS VPC, EC2, Auto Scaling, Application Load Balancer, RDS MySQL, S3, IAM, Route 53, ACM, Nginx, Node.js, PM2*

- Designed and deployed a highly available *AWS 3-tier architecture* with separate *Web, Application, and Database tiers* using *VPC, EC2, RDS, and Load Balancers*.
- Implemented custom networking with *public/private subnets, Auto Scaling Groups, and Application Load Balancers* to ensure *scalability, fault tolerance*, and secure traffic flow.
- Deployed a Node.js application using *PM2* and *Nginx*, with *Amazon RDS (MySQL)* for backend database management and Amazon S3 for application storage.
- Configured *Route 53* DNS management and *ACM SSL/TLS* certificates to enable secure HTTPS access and reliable domain-based application delivery.

TECHNICAL SKILLS

Programming Languages : C++,Python,Shell Scripting
Cloud Platforms & Services: AWS (EC2, S3, VPC, IAM, Route 53, RDS, Lambda, CloudWatch, CloudTrail, ELB, Auto Scaling, CloudFormation, DynamoDB)
DevOps & Automation Tools: Git, GitHub, Jenkins, Docker, Kubernetes, Terraform, Ansible, ArgoCD, Helm, CI/CD, Maven
Monitoring & Observability: Prometheus, Grafana, CloudWatch
Databases: MySQL, DynamoDB
Operating Systems & Tools: Linux (Ubuntu, Amazon Linux, CentOS), macOS, Windows
Web & Application Servers: Nginx, Apache Tomcat
Networking: TCP/IP, DNS, HTTP/HTTPS, VPC, Subnets, Route Tables, NAT Gateway, Security Groups, Load Balancers, Routing, VPN Fundamentals

EDUCATION

Course (Stream)	Institution/University	Year of Passing	Performance
B.E in Computer Science Engineering	KLE Institute of Technology, Hubli	2024	CGPA: 8.77
PUC in Science (PCMCs)	ICS Mahesh PU College, Dharwad	2020	Aggregate: 86.5%
SSLC (Class X)	Om English Medium High School, Dharwad	2018	Aggregate: 84.32%

CERTIFICATION

CCNA | LFCA | DevOps on AWS Specialization | AWS Academy Cloud Foundation
